YOUR EASY WAY TO GET A SHARP KNIFE AGAIN

No special skills are required for ideal sharpening results with the Giesser Sharpz models. Handling is simple and safe. Getting a crown finish thus becomes child's play.

STEP 1

Grinding:

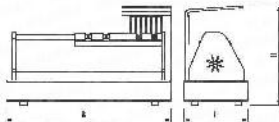

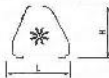

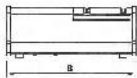

Insert the knife into the grinding wheel slot and draw it out at a steady speed from the handle to the tip. Then lift the handle so that the knife tip is also ground. Repeat this movement until you get a fine burr on the edge.

STEP 2

Polishing:

Insert the knife into the polishing unit slot and draw it out at a steady speed from the handle to the tip. Repeat this process until the burr has been completely removed.
